ACTIVITIES AND ORGANISATION

For the year ended 31 December 2016

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation. We deliver emergency aid to people affected by armed conflict, epidemics, natural disasters and exclusion from healthcare.

This report is presented along with the financial statements of the organisation for the year ended 31 December 2016. These financial statements are a means of transparency and accountability, illustrating the financial situation of the movement as a whole. They have been prepared in accordance with the accounting policies set out in Note 1.6 to the Financial Statements.

OBJECTIVES AND POLICIES

MSF offers humanitarian assistance to people based on need and irrespective of race, religion, gender or political affiliation. We work to save lives, alleviate suffering and restore dignity. Our actions are guided by medical ethics and the principles of neutrality and impartiality.

In order to be able to access and assist people in need, our operational policies must be scrupulously independent of governments, as well as religious and economic powers. We conduct our own assessments, manage our projects directly and monitor the impact of our assistance. We do not accept funds from governments or other parties who are directly involved in the conflicts to which MSF is responding. We rely on the generosity of private individuals for the majority of our funding.

In 2016, near 7,700 health professionals, logistics specialists and administrative staff of all nationalities left on field assignments to join more than 32,000 locally hired staff working in medical programmes in over 71 countries.

MSF is constantly seeking to improve the quality, relevance and extent of its assistance, and is dedicated to the pursuit of innovation. The Access Campaign supports our field programmes by pushing for improved access to existing medicines, diagnostics and vaccines, and the development of better, more appropriate medicines. MSF also funds research into the development of drugs for neglected diseases.

ORGANISATIONAL STRUCTURE

MSF is a non-profit, self-governed organisation. Founded in Paris, France in 1971, MSF today is a worldwide movement of associations, with offices all over the world. Specialised organisations – called satellites – are in charge of specific activities such as humanitarian relief supplies, epidemiological and medical research studies, and research on humanitarian and social action.

In 2011 MSF's international governance structure was reformed. MSF International was registered in Switzerland and, in December 2011, the first annual MSF International General Assembly (IGA) was held. Since then, the IGA has been held in June. The IGA comprises two representatives of each MSF association, two representatives elected by the individual members of MSF International, and the International President. The IGA is the highest authority of MSF International and is responsible for safeguarding MSF's medical humanitarian mission, and providing strategic orientation to all MSF entities.

The International Board acts on behalf of and is accountable to the IGA. It is made up of representatives of MSF's operational directorates as well as a group elected by the IGA, and is chaired by the International President. The International Board prepares and presents the international combined Financial Statements to the OGA for approval.

ALL THOSE WORKING WITH MSF AGREE TO ABIDE BY THE PRINCIPLES OF THE CHARTER OF MSF AS FOLLOWS:

THE CHARTER OF MÉDECINS SANS FRONTIÈRES

Médecins Sans Frontières is a private international association. The association is made up mainly of doctors and health sector workers and is also open to all other professions that might help in achieving its aims. All of its members agree to honour the following principles:

- Médecins Sans Frontières provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.
- Médecins Sans Frontières observes neutrality and impartiality in the name of universal medical ethics and the right to humanitarian assistance and claims full and unhindered freedom in the exercise of its functions.
- Members undertake to respect their professional code of ethics and to maintain complete independence from all political, economic or religious powers.
- As volunteers, members understand the risks and dangers of the missions they carry out and make no claim for themselves or their assigns for any form of compensation other than that which the association might be able to afford them.

PRESIDENT'S REPORT

Almost one-third of Médecins Sans Frontières (MSF) projects in 2016 were dedicated to providing assistance to populations caught in wars, such as in Yemen, South Sudan, Afghanistan, Iraq, Nigeria and Syria. MSF also provided assistance to people on the move, fleeing repression, poverty or violence, and in many cases subject to new forms of violence, exploitation or danger as countries closed options for safe and legal routes. Our teams responded to other emergencies caused by epidemics and natural disasters and provided care and improved treatment for patients with diseases such as tuberculosis (TB) and HIV.

People in conflict

In many conflict zones, civilians and civilian infrastructure – including medical facilities – came under indiscriminate or targeted attacks. Millions of people had to flee their homes, sometimes multiple times. Our teams provided assistance to those caught in conflict and fleeing. They cared for pregnant women and newborns, treated the wounded and people with medical emergencies, managed chronic illnesses and responded to disease outbreaks, notably through vaccination campaigns. MSF also worked to meet other vital needs, such as for drinking water and essential relief items. From Lebanon to Tanzania, MSF teams mobilised to assist hundreds of thousands of people who have fled violence and conflict to other countries in search of safety.

In Nigeria, the armed conflict between Boko Haram and the Nigerian military displaced an estimated 1.8 million people in Borno State alone, with many communities cut off from the rest of the country for extended periods of time due to the conflict. In June, with only limited access due to widespread insecurity, MSF teams discovered shocking situations in villages such as Bama, where two out of 10 children under five were at risk of death due to malnutrition. Thousands of people regrouped in different villages were entirely reliant on aid. By the end of the year, the humanitarian situation had improved in areas that were still accessible. However, the widespread insecurity and military restrictions presented a significant challenge to MSF and other humanitarian actors: the number of people in need of lifesaving assistance in inaccessible areas is unknown.

The armed conflict in Nigeria took on a regional dimension in the Lake Chad Basin, expanding across borders to Cameroon, Chad and Niger, with direct consequences for civilian populations. The crisis aggravated an already dire situation in a region suffering from poverty, food insecurity, recurring outbreaks of disease and almost non-existent health systems. MSF teams stepped up medical and humanitarian assistance in Chad, Cameroon and Niger for people fleeing Nigeria, as well as for local and displaced populations affected by the crisis.

In South Sudan in July, intense fighting erupted between government and opposition forces in the capital, Juba. MSF opened clinics to provide emergency treatment for patients with gunshot wounds and injuries, as well as ongoing healthcare for conditions such as malnutrition, malaria and diarrhoea. Between August and December, we intensified our response to help South Sudanese refugees as the number of people fleeing violence increased, with hundreds of thousands arriving in Uganda, as well as Ethiopia and Sudan.

In areas hit by violence, adapted solutions have to be found. In South Sudan, to ensure continuity of care during instability for patients receiving HIV antiretroviral treatment, three-month emergency patient kits were prepared and distributed in the event of imminent displacement.

In Syria, MSF medical activities continued to be significantly constrained due to insecurity in opposition areas and lack of authorisation by the Syrian government. MSF operated six medical structures in northern Syria in 2016. In inaccessible zones, such as besieged areas, our teams provided distance support to medical networks inside the country, through training, technical support and donations to medical facilities. This remains an extraordinary approach for MSF, made necessary by people's extreme level of need and suffering and our lack of direct access. The level of violence, and need, and lack of assistance led to sustained public communications by MSF through the testimonies of Syrian medical staff we supported, particularly in East Aleppo city and in besieged areas around Damascus.

Following the closure of the border between Syria and Jordan in June, around 75,000 Syrians were left stranded in the Berm/Rukban area. MSF teams and other aid actors were no longer able to reach the population. The border closures also prevented people from seeking assistance and protection outside Syria, a situation that is emblematic of a growing, pervasive reality across war zones, particularly in Syria.

In Yemen, indiscriminate attacks against civilians and civilian infrastructure had a devastating impact on a country that was already one of the poorest in the region. To address the lack of healthcare and treat the increasing number of war victims, MSF scaled up its activities, making the response in Yemen our largest in the Middle East in 2016. MSF teams directly provided healthcare to patients in 12 hospitals and supported at least 18 other facilities. On 15 August, an airstrike on Abs hospital in northern Yemen killed 19 people, including an MSF staff member, and wounded 24. MSF withdrew its staff from six hospitals in the north of the country following the airstrike, but continued to support the facilities. MSF resumed activities in northern Yemen in November 2016.

In May, the United Nations Security Council unanimously adopted Resolution 2286, condemning attacks on medical facilities and pledging to protect staff and patients in conflict settings. Yet airstrikes and shelling against health facilities continued, often by military coalitions acting with the direct or indirect involvement of Security Council members France, Russia, UK and USA. In 2016, 34 different health structures managed or supported by MSF were attacked in this way in Syria and Yemen.

Treacherous transit routes

The number of people crossing by sea to Italy increased from 153,000 in 2015 to over 180,000 in 2016. At least 5,000 men, women and children died while attempting the journey. MSF teams aboard three search and rescue vessels rescued

21,600 people from boats in distress in the Mediterranean. Our teams also recovered the bodies of people who drowned or were asphyxiated, crushed by the weight of hundreds of others.

With no safe and legal alternatives to reach Europe, almost all those rescued passed through Libya in search of assistance and protection. They described horrific suffering at the hands of smugglers, armed groups and individuals who exploited the desperation of those fleeing conflict, persecution or poverty.

In June, three months after the signing of the EU-Turkey deal, MSF announced it would no longer accept funds from the EU or EU Member States, in opposition to their damaging deterrence policies and continued attempts to push people and their suffering away from European shores.

In July, MSF began to run clinics in and around Tripoli, the Libyan capital, at some of the detention facilities established to lock up people on the move. Our teams witnessed catastrophic and inhumane living conditions.

In Central America, people from Honduras, Guatemala and El Salvador fleeing violence in their home countries were victimised during their journey through Mexico to the United States. Of all MSF medical consultations in the migrant/refugee programmes in Mexico, a quarter of patients had been subjected to physical injuries and intentional trauma that occurred in transit. Patients reported that the perpetrators of violence included members of gangs and other criminal organisations, as well as members of the Mexican security forces – the very people responsible for their protection. These populations lack comprehensive access to medical care and suffer the consequences of aggressive deportation policies that disregard their need for assistance and protection.

Infectious diseases: response and innovation

The landscape of humanitarian medicine is constantly evolving, requiring MSF to keep pace with change. Adapting tools and approaches to ensure high-quality patient care is central to MSF's work. In Niger, MSF participated in a clinical trial in the Maradi region to establish the efficacy of the new vaccine against rotavirus infection. The infection is the leading cause of severe diarrhoea in children, which kills an estimated 1,300 globally every day. These deaths primarily occur in sub-Saharan Africa, where communities in remote areas have limited access to health services. The new vaccine is heat stable and does not require refrigeration, making it better adapted for populations most vulnerable to the disease. Following the 2014-2015 West Africa Ebola outbreak, MSF contributed to the development of a vaccine with potential to help prevent the spread of the Zaire strain of Ebola during future outbreaks.

A new cholera control strategy using a single-dose oral vaccine was found to be effective by MSF teams against outbreaks in Juba and was replicated in Lusaka, Zambia in April. Over 423,000 people were vaccinated against the disease, the largest cholera vaccination campaign ever undertaken during an outbreak. In the Democratic Republic of Congo (DRC), MSF vaccinated more than a million people against yellow fever. This required the daily organisation of 100 teams of 16 staff and a fleet of 65 vehicles carrying 4,000 ice packs and coolers.

When conflict disrupts health systems, infectious disease outbreaks can become more frequent and more devastating in their impact. Prevention and control strategies were part of our response in conflict settings too, such as in Nigeria, Yemen, Central African Republic, South Sudan and Syria.

Vaccination campaigns are one of the most effective ways to prevent and respond to epidemics but are only possible if vaccines are available at affordable prices. Pneumonia remains the leading cause of death in children under five, and the high price of the pneumococcal conjugate vaccine (PCV) places it out of reach for many developing countries. In Greece, for example, MSF paid US\$68 per dose of PCV – 20 times more than the lowest global price – to ensure protection for refugee children. MSF had long urged Pfizer and GlaxoSmithKline (GSK) – the only two manufacturers of the vaccine – to offer the lowest global price to humanitarian organisations. In 2016, thanks to nearly half a million supporters who participated in MSF's *A Fair Shot* campaign, both companies agreed to lower the price of the vaccine for children caught in humanitarian emergencies.

MSF remains the largest non-government provider of TB treatment worldwide. In 2016, our teams treated over 2,000 patients for drug-resistant forms of the disease. MSF is contributing to clinical trials, initiated in 2016, aimed at establishing evidence on the safety and efficacy of the new TB drugs bedaquiline and delamanid. The trials aim to determine if these two drugs, used in a variety of novel combinations, are more effective or simpler than existing regimens, and if patients experience fewer side effects. If successful, these clinical trials could revolutionise treatment of drug-resistant TB, provided that the drugs are made accessible to patients in need.

MSF's work to deliver free, lifesaving medical care where it is needed most is only possible thanks to the vital, ongoing commitment of our supporters. We extend our sincere gratitude to you all and pay tribute to the tens of thousands of MSF staff who delivered healthcare to patients in 71 countries in 2016. We also take this opportunity to remember our MSF colleagues who lost their lives while on mission. Our teams remain actively committed to finding and bringing to safety our three colleagues abducted in the DRC in 2013. Philippe, Richard and Romy: our thoughts are with you, your friends and your families.

TREASURER'S REPORT

COMBINED ACCOUNTS 2016

MSF is pleased to present its audited combined Financial Statements. The combined accounts represent an aggregation of the audited Financial Statements of the 21 main offices worldwide (Australia, Austria, Belgium, Brazil, Canada, Denmark, France, Germany, Greece, Holland, Hong Kong, Italy, Japan, Luxembourg, Norway, South Africa, Spain, Sweden, Switzerland, the United Kingdom and the United States), together with the Financial Statements of the offices in Argentina, the Czech Republic, Republic of Korea, India and Ireland), satellite organisations (MSF Supply, MSF Logistique, Epicentre, Fondation MSF, Etat d'Urgence Production, SCI MSF, SCI Sabin, Fondation MSF Belgique, Ärzte Ohne Grenzen Foundation and MSF Enterprises Limited,) and MSF International. The combined Financial Statements provide a view of MSF's work internationally and fulfill our commitment to transparency and accountability.

INCOME

2016 saw an increase in income for MSF compared with 2015. Total income was 1,516 million euros in 2016, an increase of 101 million euros over 2015. This was due mainly to the growth of income from our private donor base of 6.1 million individuals (5.7 million in 2015) which more than offset the 41 million reduction in funding from public institutions. Private funding provided 94.9% of MSF's income in 2016 (92.1% in 2015).

EXPENDITURE

Total expenditure in 2016 was 1,459 million euros, an increase of 176 million euros over 2015. This expenditure can be broken down into two main categories: social mission and other expenses. The table below breaks down these categories still further.

	<i>In millions of €</i>	
	2016	2015
Programmes	989	872
Headquarters programme support	169	135
Témoignage / awareness-raising	44	37
Other humanitarian activities	12	13
Total social mission	1,215	1,058
Fundraising	172	164
Management and general administration	72	61
Total other expenses	244	225
Total	1,459	1,283

The result of the above is that, in 2016 83% of MSF's total expenditure was spent on social mission and 17% on other expenses (2015 82% and 18% respectively).

PROGRAMME EXPENDITURE

Countries where we ran programmes with spending over 15 million euros in 2016.

	<i>In millions of €</i>	
	2016	2015
Democratic Republic of Congo	110	100
South Sudan	87	82
Central African Republic	60	53
Yemen	60	38
Iraq	42	31
Haiti	42	32
Syria	39	18
Nigeria	39	17
Ethiopia	29	27
Niger	26	28
Greece	25	1
Afghanistan	25	27
Kenya	24	22
Pakistan	23	20
Chad	23	20
Lebanon	21	27
Myanmar / Burma	20	16
Jordan	16	13
Cameroon	15	12
Other Countries with spending under 15 million euros	263	287
Total	989	872

Those countries listed separately above accounted for 73% of MSF's 2016 programme expenditure (2015: 74% - percentage based on the 2015 list).

RESULT FOR THE YEAR AND RESERVES POLICY

The result for 2016, after adjusting for exchange gains/losses, shows a surplus of 69 million euros (surplus 164 million euros for 2015). MSF has a reserves policy, at an international level, of holding retained earnings to cover working capital needs, buffer, investment, and emergency. The level of reserves as at 31 December 2016 equates to approximately 9.2 months (10.5 months for 2015) of the year's activity (see Note 3.14).

AUDITORS' REPORT

Ernst & Young Ltd

59, route de Chancy
1213 Lancy-Geneva

KPMG SA

111, rue de Lyon
1203 Geneva

Report of the Joint Independent Auditors to the Members of the MSF International General Assembly on the Combined Financial Statements of

Médecins Sans Frontières International, Geneva

We have audited the combined financial statements of Médecins Sans Frontières International, on pages 8 to 37, which comprise the statement of financial position, the statement of financial activities, statement of changes in funds, statement of cash flows and notes for the year ended 31 December, 2016.

International Board's Responsibility for the Combined Financial Statements

The International Board is responsible for the preparation of these combined financial statements in accordance with the accounting policies set out in the notes to the combined financial statements. This responsibility includes designing, implementing and maintaining an internal control system relevant to the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error. The International Board is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Joint Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with Swiss Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the International Board, as well as evaluating the overall presentation of the combined financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements of Médecins Sans Frontières International for the year ended 31 December, 2016 give a true and fair view of the combined financial statements with the accounting policies set out in Note 1 to the combined financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

1 BASIS OF REPORTING

1.1 BASIS OF PREPARATION

These Financial Statements are based on a combination. A consolidation aggregates the Financial Statements of several separate entities which are not inter-related by investments into a single group, whereas a combination collates different affiliates of a single parent entity in its Financial Statements. All entities are combined following the combination method under 1.2. These were approved by the International Board of MSF on the 24 May 2017.

1.2 BASIS OF COMBINATION

Equity accumulation

Since the first combination of an entity does not result from the purchase of shares, combined equity represents the aggregated equity capital and other equity of the combined entities. Investments between combined entities are eliminated against equity.

Initial measurement of the combined entities' assets and liabilities

Since the first combination of an entity does not result from the purchase of shares but from a pooling of economic interests, neither goodwill nor fair value adjustments exist. The assets and liabilities of each combined entity are initially measured at net book value, based on the Swiss Generally Accepted Accounting Principles and all transactions between inter-companies have been eliminated.

Scope of combination

The following entities' results have been included based on the specific method described in this disclosure:

MSF Australia	1–9 Glebe Point Road Glebe NSW 2037 Australia
MSF Austria	Taborstraße 10 A-1020 Vienna Austria
MSF Belgium	Rue de l'Arbre Bénit 46, 1050 Brussels Belgium
MSF Canada	720 Spadina Avenue, Suite 402 Toronto, Ontario M5S 2T9 Canada
MSF Czech Republic	Lékari bez hranic, o.p.s Seifertova 555/47, 130 00 Praha 3 – Žižkov Czech
MSF Denmark	Dronningensgade 68, 3. DK-1420 København Denmark
MSF France	8, rue Saint Sabin 75011 Paris France
MSF Germany	Am Köllnischen Park 1 10179 Berlin Germany
MSF Greece	15 Xenias St. 115 27 Athens Greece
MSF Holland	Plantage Middenlaan 14 1018 DD Amsterdam Netherlands
MSF Hong Kong	22/F Pacific Plaza 410– 418 Des Voeux Road West, Sai Wan Hong Kong
MSF Ireland	9–11 Upper Baggot Street Dublin 4 Ireland
MSF Italy	Via Magenta 5 00185 Rome Italy
MSF International	78 rue de Lausanne Case Postale 116, CH-1211 Geneva 21 Switzerland
MSF Japan	Forecast Waseda FIRST 3F, 1-1 Babashita-cho, Shinjuku-ku, Tokyo 162-0045 Japan
MSF Logistique	3 Rue du Domaine de la Fontaine 33700 Mérignac France
MSF Luxembourg	68, rue de Gasperich L-1617 Luxembourg
MSF Norway	Hausmannsgate 6 0186 Oslo Norway
MSF South Africa	Orion Building 3rd floor 49 Jorissen Street Braamfontein 2017 Johannesburg South Africa
MSF Spain	Nou de la Rambla 26 08001 Barcelona Spain
MSF Supply	Chée de Vilvorde/Vilvoordsestweg 140 1120 Neder-Over-Heembeek Belgium
MSF Sweden	Fredsborgsgatan 24 4 trappor Box 47021 100 74 Stockholm Sweden
MSF Switzerland	Rue de Lausanne 78. Case postale 1016, 1211 Genève 1. Switzerland.
MSF UK	Lower Ground Floor Chancery Exchange 10 Furnival Street London EC4A 1AB UK
MSF USA	333 7th Avenue 2nd Floor New York NY 10001-5004 USA
Epicentre	8, rue Saint Sabin 75011 Paris France
EUP	8, rue Saint Sabin 75011 Paris France
Fondation MSF	8, rue Saint Sabin 75011 Paris France
SCI MSF	8, rue Saint Sabin 75011 Paris France
SCI Sabin	8, rue Saint Sabin 75011 Paris France
Ärzte Ohne Grenzen Foundation	Am Köllnischen Park 1 10179 Berlin Germany
MSF Brazil	Rua do Catete, 84 Catete Rio de Janeiro, CEP 22220-000 Brazil
MSF South Korea	5 Floor Joy Tower B/D 7 Teheran Road 37-gil Gangnam-gu Seoul 135-915 South Korea
MSF Argentina	Av. Santa Fe 4559 C1425BHH. Ciudad de Buenos Aires. Argentina
MSF India	AISF Building 1st & 2nd Floor Amar Colony, Lajpat Nagar IV New Delhi 110024 India
Fondation MSF Belgique	Rue de l'Arbre Bénit 46, 1050 Brussels Belgium

Subsequent measurement of the combined entities' assets and liabilities

After the first combination, capital gains or losses, provision allowances and reversals contribute to the combined surplus or deficit.

The combined Financial Statements comprise the:

- Statement of Financial Activities
- Statement of Financial Position
- Statement of Changes in Funds
- Statement of Cash Flows
- Notes to the Financial Statements

1.3 RELATED PARTIES

All the entities disclosed above are related parties, as well as the International Board members disclosed under the note 5.3.4.2 Remuneration of Directors and Managers.

1.4 BASIS OF PRESENTATION

The combined Financial Statements have been prepared in accordance with and comply with the articles of the association MSF International, and the Swiss generally accepted accounting principles (Swiss GAAP RPC, including Swiss GAAP RPC 21). As MSF presents combined accounts, Swiss GAAP RPC30 is not applicable. However those accounts have been inspired by Swiss GAAP RPC30 for presentation and disclosures in order to comply with group requirements.

The Financial Statements are presented in euros, rounded to the nearest thousand. They are prepared in accordance with the historical cost convention.

The Financial Statements have been prepared and presented according to the principles of accruals, matching, going concern, consistency and prudence.

Figures are rounded and therefore may vary slightly from the amounts presented in other documents. Rounding differences may exist within summations.

1.5 FUNCTIONAL AND PRESENTATION CURRENCY

The individual Statements of Financial Position of the combined entities are translated into euros at the year-end rate.

The individual Statements of Financial Activities of the combined entities are translated at the average rate for the current year.

The main currency exchange rates compared to the euro are as follows:

	Closing rate 2016	Closing rate 2015	Average rate 2016	Average rate 2015
ARS	16.71	14.20	16.70	10.26
AUD	1.46	1.49	1.49	1.48
BRL	3.43	4.31	3.86	3.70
CAD	1.42	1.51	1.47	1.42
CHF	1.07	1.08	1.09	1.07
CZK	27.02	27.02	27.03	27.28
DKK	7.43	7.46	7.45	7.46
EUR	1.00	1.00	1.00	1.00

HKD	8.18	8.44	8.59	8.60
INR	71.59	72.02	74.37	71.20
JPY	123.40	131.07	120.20	134.31
KRW	1,269.36	1,280.78	1,284.18	1,256.54
NOK	9.09	9.60	9.29	8.95
SEK	9.55	9.19	9.47	9.35
USD	1.05	1.09	1.11	1.11
ZAR	14.46	16.95	16.26	14.17

1.6 CHANGE IN ACCOUNTING POLICIES AND DISCLOSURES

In 2016, MSF fully adopted the Swiss Generally Accepted Accounting Principles (Swiss GAAP RPC accounting framework, including Swiss GAAP RPC 21 specific to Not for Profit Organisations). Previously, the combined financial statements of MSF were prepared in accordance with MSF accounting policies, a special purpose accounting framework.

Swiss GAAP RPC has been applied retrospectively and the comparative figures have been restated.

From 2016, MSF has also changed its accounting principles related to the income recognition (grants, legacies and bequests). Expenses allocation policy has been changed in order to improve transparency and the internal and external accountability of MSF.

The final financial impact of first adoption to Swiss GAAP RPC is as follows:

- Changes in 2015 Surplus: -28,479 thousand euros
- Changes in 2015 restricted funds: +12,332 thousand euros
- Changes in 2015 unrestricted funds: +28,505 thousand euros

1.7 FINANCIAL RISK MANAGEMENT

Due to the nature of its activities, MSF might be exposed to financial market risk - including foreign currency risk, interest rate risk, credit risk and liquidity risk.

Risk management is conducted by each MSF entity Board of Directors. Risks are assessed in collaboration with the operating units and any mitigation measure is decided and implemented under the regular supervision of each entity Board of Directors.

Foreign currency risk

Some MSF entities use forward foreign exchange contracts to hedge the exposure to foreign exchange risks arising from significant internal transfers denominated in a different currency to the one in which the expenditure will be incurred.

Interest rate risk

There is no interest rate risk for MSF since all long-term loans are at fixed rates.

Credit risk

MSF prioritises the security of its cash and cash equivalents. Investments are generally held in liquid securities, and in banks of high credit rating. The receivables are mostly from governments with high credit ratings, where credit risk is low. Other positions are not material, or are covered by provisions. Investments are allowed only in liquid securities and only with counterparties that have a high credit rating. At year-end, there were no significant concentrations of credit risk.

Liquidity risk

Due to the nature of MSF's funding, together with its reserves policy that ensures a sufficient level of liquidity for its operations at all times, the liquidity risk is insignificant.

Contingent assets

Contingent assets (assets with no sufficient reliable estimate is possible) in MSF are mainly build up of legacies and bequests expected at year-end but not yet legally transferred. Their best estimate value is 28,407 thousand euros in 2016 and 23,593 thousand euros in 2015.

2 NOTES TO THE STATEMENT OF FINANCIAL ACTIVITIES

2.1 INCOME

2.1.1 PRIVATE INCOME

Income from individuals includes:

	<i>In thousands of €</i>	
	2016	2015
Donations	1,023,962	947,418
Legacies and bequests	209,622	147,386
Membership fees	255	242
Income from individuals	1,233,838	1,095,046

Income from private institutions comes from the following sources:

	<i>In thousands of €</i>	
	2016	2015
Companies	78,172	72,196
Trusts and foundations	86,391	85,842
Lottery and special events	35,502	45,692
Joint appeals	1,067	1,751
Other private institutions	3,377	3,097
Income from private institutions	204,510	208,577

2.1.2 PUBLIC INSTITUTIONAL INCOME

The table below presents the breakdown of donations and grants awarded by public institutional bodies classified by geographic origin:

	<i>In thousands of €</i>	
	2016	2015
ECHO and EU institutions	4,991	18,894
EU governments	22,359	36,742
Non-EU governments	7,561	13,375
American governments	2,422	9,693
Asian governments	943	1,739
Other governments	15,623	14,109
UN institutions	100	83
Public institutional income	53,997	94,634

2.1.3 OTHER INCOME

	<i>In thousands of €</i>	
	2016	2015
Interest/investment income	4,524	8
Merchandising	625	575
Equipment and services sold to other organisations	9,160	10,580
Other revenues	9,646	5,917
Other income	23,955	17,081

MSF's income comprises contributions from public generosity and public institutional bodies, as well as revenues from other activities. Private income is donated by individuals and private organisations (companies, trusts and foundations, and other non-profit organisations). Public institutional income represents grants (i.e. contributions based on contracts for specific projects), subsidies and donations received from or pledged directly by public institutional bodies, such as governments or agencies. Income from other activities is mainly from merchandising, equipment and services provided to other organisations, and financial transactions.

Restrictions

Income is considered as restricted only when subject to a donor-imposed restriction. Donors include all the external parties that contribute to MSF's resources. A donor-imposed restriction is a stipulation and limitation on the use of contributed assets or monetary donations. The restriction can relate to purpose (country, programme or activity), time or other specific wishes (e.g. vaccines). Funds received for 'emergencies' are treated as restricted if the emergency is explicitly specified by the donor or can be inferred from the circumstances, but are otherwise regarded as unrestricted, as the provision of emergency aid embodies MSF's mission.

Donations with donor-imposed restrictions are reported as restricted for their full amount and the donation is considered to be an allocated fund. Allocated funds that have not been used at the end of the year are presented in a separate section of the balance sheet. Grants are reported as restricted income for the allowable expenses incurred in the current year.

Donations

Donations are based on non-reciprocal transfers of cash or other assets, or cancellation of liabilities. They are recognised as income upon receipt.

Legacies and bequests

Legacies and bequests are accounted for at their best estimated amount when legally transferred to MSF. The financial impact of the migration to Swiss GAAP RPC in the income is 30,383 thousand euros.

Grants

Grants are recognised as income for the allowable expenses incurred in the current year. At year-end, the difference between the cash received and the cumulative expenses incurred is accounted for as grants receivable or deferred income.

2.1.4 IN-KIND DONATIONS AND SERVICES

Occasionally, MSF receives donations in kind, primarily in the form of the free use of goods or services (drugs and medical equipments in the field, and consultancies and travel miles in headquarters). These contributions in kind are not stated in the operating account, but an estimation of the value of these goods is presented below. The contributions are valued on the basis of the donation certificate or the contract entered into with the donor. The act of volunteering to work in MSF's humanitarian projects is not recorded in the accounts. This contribution represents one of the bases of the MSF Charter and principles. The Swiss GAAP RPC regulation involves that in-kind donations of good and services are not recognised as income in the Statement of Financial Activities, and are valued at the fair market value of the donation received.

The total value of the goods and services received in 2015 and 2016 is estimated as:

	<i>In thousands of €</i>	
	2016	2015
Headquarters	10,679	4,163
Field Programme expenses	2,588	7,309
In-kind donations and services	13,266	11,472

Public institutional grants	-	-	-	-	-	-	249	320
Financial expenses	3,264	1,172	-	-	4,435	346	7,010	5,362
Depreciation	788	1,131	-	-	1,920	5,141	10,511	9,593
Others	663	1,110	-	-	1,773	819	18,733	10,245
TOTAL BEFORE OVERHEADS	166,504	58,623	-	2	225,129	47,733	1,458,847	1,282,760
Overhead allocation	7,141	9,196	-	-	16,337	-47,733	-	-
TOTAL AFTER OVERHEADS ALLOCATION	173,645	67,819	-	2	241,466	-	1,458,847	1,282,760

Expenses are allocated according to the full cost method. The principle of the full cost method is to collate under each expense category not only the direct costs that are specifically associated with it (direct allowable costs), but also an apportionment of the indirect costs (overheads). Therefore, all expenditure categories include salaries, direct costs and allocated overheads (e.g. building costs and depreciation).

2.2.2 PERSONNEL EXPENSES

In thousands of €

	Personnel costs: Employees in the Headquarters	Personnel costs: Field - International Staff	Personnel costs: Field - National staff	Personnel costs: Field - Consultants & field support	2016	2015

Programmes	561,342	50,837	299,376	49,106	4,284	24,441	989,385	872,248

Programme expenses represent expenses incurred in the field or by the headquarters on behalf of the field, as well as grants/donations awarded/given to other organisations.

The details by sub-continent are presented below:

2.2.4 PROGRAMME SUPPORT

Programme support relates to expenses incurred in order to carry out MSF humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of international staff, activities designed to improve the quality and the effectiveness of MSF operations).

2.2.5 AWARENESS-RAISING

Awareness-raising activities comprise expenses incurred by MSF in an educational manner in furtherance of its social mission. They represent the situations where MSF acts as a witness and speaks out about the plight of the populations it serves through mobilisation of the international community and by issuing information publicly in order to stir up indignation, put pressure on responsible actors and stimulate action.

MSF's Access Campaign is made up of a team of medical, legal, policy and communications specialists. It pushes to lower the prices of existing drugs, vaccines and diagnostic tests; to stimulate research and development into new treatments for diseases that primarily affect the poor; and to overcome other barriers that prevent patients getting the treatment they need.

In thousands of €

	2016	2015
Access Campaign	6,006	5,385
Awareness-raising	38,460	31,859
Awareness-raising	44,466	37,244

2.2.6 OTHER HUMANITARIAN ACTIVITIES

The other humanitarian activities consist primarily of the cost of the goods sold and services provided to other organisations, as well as MSF's contribution to the Drugs for Neglected Disease initiative (See Note 5.1.2).

2.2.7 FUNDRAISING

Fundraising expenses represent the costs incurred for raising funds from all possible sources of income, be they private or public institutional.

2.2.8 MANAGEMENT AND GENERAL ADMINISTRATION

Management and general administration consists primarily of expenses associated with executive management, headquarters finance and human resources management, internal communication and the associative life of the organisation.

2.2.9 INCOME TAX

MSF is exempt from income taxes in most countries in which its entities are based.

2.2.10 NET EXCHANGE GAINS / LOSSES UNREALISED AND REALISED

Net exchange gains/losses represent the gains/losses generated from foreign currency transactions entered into during the year by the various offices. The exchange rate fluctuations that had the largest impact on the Statement of Financial Activities relate to the US dollar (USD), Hong Kong dollar (HKD), Swiss franc (CHF), Pound sterling (GBP), and Brazilian real (BRL).

3 NOTES TO THE STATEMENT OF FINANCIAL POSITION

3.1 CASH AND EQUIVALENTS

	<i>In thousands of €</i>	
	2016	2015
Short-term deposits	499,926	485,750
Cash at headquarters	448,177	504,187
Cash in the field	53,018	34,807
Cash and cash equivalents	1,001,121	1,024,744

MSF considers short-term deposits, cash at headquarters and cash in the field as cash and cash equivalents. Amounts are valued at fair value with any resulting gains or losses recognised in the Statement of Financial Activities. For the Statement of Cash Flows, overdrafts are included as a negative component of cash equivalents. Cash and cash equivalents maturity is at 90 days.

3.2 INVENTORIES

			<i>In thousands of €</i>	
	Gross value	Provision	2016	2015
Medical and non-medical relief goods	49,892	-1,409	48,483	40,694
Other inventories	4,737	-	4,737	506
Inventories	54,629	-1,409	53,220	41,200

Inventories held at headquarters and by satellites are recorded at the weighted average of the purchase price. All goods and materials present in the field are recognised as expenses when transferred from the headquarters and satellites to the field, or when bought locally. Appropriate inventory provisions are recorded based on stock usage, expiry date and any damage.

3.3 GRANTS RECEIVABLE

			<i>In thousands of €</i>	
	Gross value	Provision	2016	2015
Grants receivable from private donors	3,413	-	3,413	5,652
Grants receivable from public institutions	22,270	-	22,270	28,332
ECHO and EU institutions	1,000	-	1,000	3,380
EU governments	74	-	74	6,226
Non-EU governments	-	-	-	6,603
American governments	-	-	-	827
Other governments	21,145	-	21,145	9,270
UN institutions	50	-	50	-
Grants receivable	25,683	-	25,683	33,984

Grants receivable correspond to funds owed to MSF by third parties according to a formal agreement. They result from the differences between the total amount of the grant and the funds received for each of these agreements. The financial impact of the migration to Swiss GAAP RPC in the grants receivables is 13,730 thousand euros in 2015.

3.4 CONTRIBUTIONS RECEIVABLE

At 31 December 2016, the outstanding commitment represents 63,303 thousand euros (2015: 42,667 thousand euros) and is expected to be received within the following year.

Contributions receivable include donations sent by donors before year-end for which the corresponding cash has been collected by MSF in the month following year-end. They are accounted for at their cost net of impairment.

There is no provision for contribution receivable stated at 31 December 2016.

3.5 OTHER RECEIVABLES

Other receivables mainly relate to services provided and goods sold to other organisations as well as to property received from legacies and bequests not sold yet. At 31 December 2016, the committed outstanding amount to 56,532 thousand euros (2015: 42,888 thousand euros).

Legacies and bequests are accounted at their best-estimated value. The financial impact of the migration to Swiss GAAP RPC in the assets is 41,817 thousand euros in 2015. Other receivables and other assets are recorded at their fair value.

There is no provision for other receivable stated at 31 December 2016.

3.6 OTHER ASSETS

Other assets of 23,897 thousand euros (2015: 15,095 thousand euros) include mainly prepaid expenses.

3.7 FINANCIAL ASSETS

Financial assets consist primarily of loans, investments and other financial assets such as deposits. They are intended to be held for more than one year.

	Gross value	Provision	2016	2015
Loans	490	-	490	-
Long-term investments	28,751	-	28,751	22,876
Other financial assets	4,314	-87	4,227	3,967
Financial assets	33,555	-87	33,468	26,843

In thousands of €

Financial assets are stated at acquisition cost less impairment. Changes in the value of current investments, other financial assets and long-term investments are recorded in the Statement of Financial Activities.

3.8 INTANGIBLE ASSETS, PROPERTY, PLANT AND EQUIPMENT

Intangible assets are mainly composed of software and licenses.

Property, plant and equipment are mainly composed of the head offices of some entities.

	2015	Additions	Disposals	Foreign exchange gain / loss	Other movements	2016
Intangible assets - gross value	29,739	6,040	-1,314	119	54	34,638
Depreciation	-18,887	-3,689	259	-62	-	-22,379
Intangible assets	10,852	2,352	-1,056	57	54	12,259
Land	14,975	43,282	-	14	-	58,271
Buildings	42,596	54,850	-28	1,968	-	99,386
Fixtures	13,824	1,474	-565	25	13	14,771
Furniture	7,738	554	-149	49	-	8,191
Computers	15,153	2,069	-1,642	109	-	15,689
Machinery and equipment	8,795	1,706	-23	93	-	10,570
Other tangible assets	1,883	22,870	-83	5	-13	24,662
Property, plant and equipment – gross value	104,963	126,804	-2,490	2,262	-	231,540
Depreciation	-43,751	-6,770	2,425	-303	-	-48,398
Property, plant and equipment	61,212	120,035	-64	1,960	-	183,142
Total Intangible assets and PPE	72,064	122,386	-1,120	2,017	54	195,402

In thousands of €

Other tangible assets includes 22.3 million euros of "Building under construction" for MSF offices.

In thousands of €

	2014	Additions	Disposals	Foreign exchange gain / loss	Other movements	2015
Intangible assets - gross value	26,658	3,830	-2,296	438	1,109	29,739
Depreciation	-18,139	-2,506	2,009	-262	10	-18,887
Intangible assets	8,519	1,324	-287	176	1,120	10,852
Land	14,712	–	–	159	104	14,975
Buildings	40,682	189	-4	751	978	42,596
Fixtures	11,019	2,269	-36	64	508	13,824
Furniture	6,810	738	-6	193	2	7,738
Computers	13,294	3,350	-1,731	234	6	15,153
Machinery and equipment	7,655	985	-245	399	1	8,795
Other tangible assets	3,512	1,208	-3,370	1	531	1,883
Property, plant and equipment – gross value	97,684	8,739	-5,392	1,800	2,132	104,963
Depreciation	-39,659	-5,565	4,071	-831	-1,767	-43,751
Property, plant and equipment	58,025	3,174	-1,321	969	365	61,212
Total Intangible assets and PPE	66,544	4,498	-1,607	1,145	1,484	72,064

The intangible assets, property, plant and equipment held by MSF are considered to be fixed assets when they are held to be used for the activity, or for administrative purposes, and when they are expected to be used over more than one year.

Intangible assets are recorded at cost (or historical value), net of accumulated amortisation and impairment losses. They are amortised on a straight-line basis over their estimated useful lives.

Property, plant and equipment are recorded at their acquisition cost, including incidental expenses. They are depreciated using the straight-line method over their estimated useful lives, using the component approach. Land is not depreciated.

All assets are depreciated following the linear method. The depreciation length varies according to the type of asset:

- 2 to 10 years depending on the country for the intangible assets,
- 20 to 50 years for the buildings,
- 5 to 15 years for the fixtures,
- 3 to 25 years for the furniture,
- 2 to 15 years for the computers
- 3 to 5 years for machinery & equipment, and
- 3 to 10 years for other tangible assets.

The acquisition cost of fixed assets used in the field for programme purposes, such as vehicles and medical and communication equipment, is expensed upon shipment to the field, or upon purchase if purchased locally. This can be justified due to the instability of the contexts in which MSF operates and the difficulty in determining, in a reliable way, their useful life and residual value. When an MSF section leaves a country, the remaining equipment is donated to the Ministry of Health of the country or another non-governmental organisation still present in the country, and thus does not generate any future economic benefit for MSF.

Finance leases

At 31 December 2016, the net value of capitalised leased assets stands at 3,425 thousand euros, and of capitalised lease obligations at 5,833 thousand euros (2015: 3,431 thousand and 6,324 thousand euros, respectively). The total reimbursements for the current year amount to 500 thousand euros, and the rent expenses to 639 thousand euros (2015: 23 thousand and 25 thousand euros, respectively).

Assets acquired under long-term finance leases are capitalised and recorded in the Statement of Financial Position. They are depreciated over the estimated useful lives of the assets. The associated obligations are included in financial debts.

For the details on Capitalised lease obligations, refer to note 3.12 Financial debts.

3.9 DEFERRED INCOME

	<i>In thousands of €</i>	
	2016	2015
Deferred income on public institutional grants - Current	5,048	16,035
Deferred income on private grants - Current	5,148	6,553
Other deferred income - Current	188	138
Gross value of investment subsidies - Current	3,221	2,500
Deferred income - Current	13,605	25,226
Deferred income on public institutional grants - Non-current	80	2,081
Deferred income on private grants - Non-current	-	4,139
Other deferred income - Non-current	1	-
Deferred income - Non Current	81	6,221
Deferred income - TOTAL	13,685	31,446

Deferred income is the unspent restricted income received from public institutional and private grants that will be used in the future years. These outstanding granted amounts at the accounting closure are recognised in the balance sheet. They are disclosed under short-term liabilities for those that will be spent in less than 1 year, and long-term liabilities for those exceeding 12 months after the accounting year end.

The financial impact of the migration to Swiss GAAP RPC in the deferred income is 13,532 thousand euros in 2015.

According to the Swiss GAAP RPC, the unspent restricted income without contractual obligations is accounted under restricted equity. Under MSF GAAP the cumulative unspent donor-designated funds has been accounted as a deferred income (liability); under Swiss GAAP RPC this restricted income is disclosed as equity. The amount of the impact in 2015 is 12,332 thousand euros.

3.10 ACCOUNTS PAYABLE AND ACCRUED EXPENSES

The details of the accounts payable and accrued expenses, including short-term and long-term split are disclosed below:

	<i>In thousands of €</i>					
	Total		Current		Non current	
	2016	2015	2016	2015	2016	2015
Accounts payable and accruals	64,226	57,252	64,215	56,894	11	358
Employee benefits	45,217	34,615	45,105	34,486	112	130
Accrued taxes	9,096	6,263	9,096	6,263	-	-
Public institutional grants payable	153	514	153	514	-	-
Private grants payable	468	1,064	468	1,064	-	-
Other liabilities	15,450	17,454	15,255	17,266	195	188
Accounts payable and accrued expenses	134,610	117,162	134,293	116,487	317	676

Accounts payable and accrued expenses are composed of amounts owed to suppliers, employees and tax authorities, and of grants payable to external organisations.

Trade accounts payable to suppliers are recorded on an invoice basis when the invoices are received by the time of preparation of the financial statements. Accrued expenses are valued at the best estimate if no invoice is received later. Staff costs and litigation in the field are recorded on the cash basis when there is insufficient information available to evaluate the amount of any financial impact at year-end. Accruals for paid vacation of local field staff have been recorded only by some operational offices as at 31 December 2016, as complete information was not available at year-end. Grants payable and other debts are accounted for at their fair value.

3.11 PENSION PLANS

In thousands of €

2016 Pension Plans	Contributions concerning the period	Pension benefit expenses (within personnel expenses)		Capital ratio	
		2016	2015	2016	2015
Pension plans with surplus	4,516	4,108	2,661	108%	106%
TOTAL PENSION PLANS	4,516	4,108	2,661	108%	106%

The nature of pension plans for headquarters and international employees depends on the normal custom for the contracting country of the employee. Pension obligations are usually covered by a defined contribution plan with an independent organisation. Contributions to a defined contribution plan are recognised as an expense in the Statement of Financial Activities in the year in which they are incurred. MSF International and MSF Switzerland employees benefit from a scheme covering retirement, invalidity pension, and death according to the provisions of the Federal Law for occupational retirement (LOB). The occupational benefits are provided by a collective foundation, Profond, according to a defined contribution benefit plan: investment yield has no impact on premiums; the employer does not guarantee the benefit amount. The Plan is funded by the contributions of MSF International and the employees. The plan covers the usual occupational benefits: retirement and invalidity pension, and death benefits. Risks are insured by the collective Foundation.

3.12 FINANCIAL DEBTS

In thousands of €

	2016	2015
Borrowings and loans	39	265
Capitalised lease obligation	5,833	6,324
Financial debts - Current	5,872	6,589
Borrowings and loans	65,890	-
Capitalised lease obligation	-	26
Financial debts - Non-current	65,890	26

Financial debts are recorded at fair value.

MSF purchased two new buildings for offices purposes in 2016 and external borrowings and loans have been used to finance those projects.

3.13 PROVISIONS

The following table shows the changes in provisions over the year:

In thousands of €

	2015	Additional provisions	Amounts used	Unused amounts reversed	Foreign exchange gain / loss	Other movements	2016
Tax provisions	2,440	2,386	-33	-865	-	-	3,928
Provisions for staff retirement plans	1,073	324	-65	-	-	-	1,332
Provisions for project closure planned at year-end	1,764	2,002	-1,587	-50	-	-	2,129
Provisions related to disputes with staff	2,058	2,148	-591	-1,069	-	-	2,623
Other provisions	5,560	4,255	-418	-495	52	-	8,876
Total provisions	12,896	11,114	-2,694	-2,479	52	-	18,889

	2014	Additional provisions	Amounts used	Unused amounts reversed	Foreign exchange gain / loss	Other movements	2015
Provisions	9,318	8,077	-3,490	-1,406	402	-5	12,896

Provisions are valued at best estimate when MSF has a legal or constructive obligation as the result of a past event, and if it is probable that an outflow of assets will be required to settle the provision.

3.14 FUNDS

MSF's funds have been built up over the years by surpluses of income over expenses. At 31 December 2016, the available portion (excluding permanently restricted funds and capital for foundations) represents 9.2 months of activity (2015: 10.5 months). The purpose of maintaining funds is to meet the following needs, as described in MSF reserves policy:

- working capital needs, providing liquidity (financing) for the day-to-day functional expenditure, covering the inter-year gap between high income at the end of the year and more or less constant funds spent during the year;
- buffer reserves for risk coverage, being the risk either operational or non-operational;
- investment reserve to finance future investments, considering both non-current assets financing, and 'spent investments' or extra costs in a given year needed to increase operational or funding capacity;
- emergency reserves, when emergency expenditure surpasses amounts foreseen at the budgeting season, increasing thus operational budgets, and these emergencies do not provide at the same time extra-income to be able to carry-out these operations; or
- a sudden drop of private and/or public institutional funding that cannot be matched in the short term by a reduction in expenditure.

Funds represent the cumulative surpluses and deficits of current and previous years. They comprise:

- Permanently restricted funds, which may be capital funds, where the assets are required by the donors to be invested or retained for long-term use, rather than expended short term, or which may be the minimum compulsory level of funds to be maintained in some countries.
- Temporary restricted funds, which are contributions received with a specific earmarking that have not been spent at year-end.
- Unrestricted funds, which are unspent donor non-designated funds to be spent at the discretion of MSF's trustees to further MSF's social mission.
- Other funds and equities, which represent foundations' capital, and translation adjustments arising from the translation of entities' financial statements into euros. Unspent donor-designated/restricted funds are not included as funds, but are treated as deferred income.

Temporarily restricted funds allocated to missions

In thousands of €

	2016	2015
Afghanistan	258	258
Algeria	19	19
Angola	5	5
Congo, Democratic Republic of the	354	988
Egypt	3	3
India	632	632
Iran	58	58
Mediterranean Sea Operations	6	60
Pakistan	1	1
Peru	34	34
Philippines	31	1,298
Sierra Leone	5	-142
South Africa	4	34
Sri Lanka	9	9
Sudan	3	3
Transversal activities	-17	1,874
Other countries or restrictions	30,896	6,772
TEMPORARILY RESTRICTED FUNDS	32,303	12,332

According to the Swiss GAAP RPC, the unspent restricted income without contractual obligations is accounted under restricted equity. Under MSF GAAP (first table) the cumulative unspent donor-designated funds has been accounted as a deferred income (liability). Under Swiss GAAP RPC (second table) this restricted income is disclosed as equity. The amount of the impact in 2015 is 12,332 thousand euros.

4 RATIOS AND SECTORIAL INFORMATION

4.1 RATIOS

4.1.1 OPERATIONAL RATIOS

	2016	2015
Operations	79.4%	78.5%
Awareness-raising	3%	2.9%
Other humanitarian activities	0.8%	1%
Social mission	83.3%	82.4%
Fundraising	11.8%	12.8%
Management and general administration	4.9%	4.8%
Income tax	–	–
Other expenses	16.7%	17.6%
Expenditure	100.0%	100.0%

4.1.2 FINANCIAL INDEPENDENCE

	2016	2015
Private income	94.9%	92.1%
Public institutional income	3.6%	6.7%
Other income	1.5%	1.2%
Income	100.0%	100.0%

As part of our effort to guarantee independence and strengthen our link with home societies, we have striven to maintain a high level of private income. Funds coming from non-public-institutional sources represented 96.4% of MSF total income in 2016 (2015: 93.3%). More than 6.1 million (2015: 5.7 million) individual donors and private funders worldwide made this possible.

The Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM)	4,340	4,504
International Drug Purchase Facility (UNITAID)	10,874	8,683
Total Public institutional income – Other public institutions – MSF	15,484	13,969
World Health Organization (WHO)	100	83
UN institutions	100	83
Public institutional income	52,013	91,357

Programmes relate to the aid projects undertaken by MSF and include the direct expenses incurred in the different countries of intervention. Indirect supply costs represent the costs dedicated to the projects and associated with the delivery of emergency relief supplies.

989,385 thousand euros were spent in direct connection with the projects (2015: 872,248 thousand euros). The indirect supply costs of the logistics satellites stood at 21,038 thousand euros (2015: 19,964 thousand euros).

These expenses were funded by 52,013 thousand euros from public institutional bodies (2015: 91,357 thousand), the balance being funded by unrestricted and restricted private funds.

32,046 locally hired staff and 3,202 international staff worked directly with the projects (2015: 30,988 locally hired staff and 2,924 International staff) as explained in note 5.3.2.

Figures for the previous year are presented in total for comparative purposes. They are not presented in the following pages for the different countries/regions of intervention because the emergency nature of MSF's action means that year to year comparison by country/region of intervention is of limited value.

The difference of 1,984 thousand euros between public institutional income as stated in the Statement of Financial Activities (Note 4.2.2) and the amount mentioned above represents the funding of expenses and activities incurred or undertaken at headquarters level (2015: 3,278 thousand euros).

5 OTHER INFORMATION

5.1 OFF-BALANCE SHEET COMMITMENTS

	<i>In thousands of €</i>	
	2016	2015
Guarantees given	450	930
Rental contracts for office buildings	11,698	10,919
Other off-balance sheet commitments given	1,826	2,715
DNDi	8,000	12,000
Other off-balance sheet commitments	21,974	26,564

MSF participated in the establishment of the Drugs for Neglected Diseases initiative (DNDi) with six other organisations: five public sector institutions – the Oswaldo Cruz Foundation from Brazil, the Indian Council for Medical Research, the Kenya Medical Research Institute, the Ministry of Health of Malaysia and France's Pasteur Institute – and one international research organisation, the Special Programme for Research and Training in Tropical Diseases (TDR), which is a permanent observer to the initiative.

DNDi became a legal entity in July 2003 and MSF was one of the founding partners. MSF's objective in its involvement in the creation of DNDi was to help create a research and development initiative for neglected diseases, which in time would be self-financing and in a position to work independently of MSF. Accordingly, MSF initially committed itself to be involved for five years. A subsequent period of support was agreed until 2014. In 2013, the IGA decided to continue the support and commitment towards DNDi at the level of 4 million euros per year until 2018.

5.2 SUBSEQUENT EVENTS

There are no subsequent events to report.

5.3 STAFF FIGURES

5.3.1 INTERNATIONAL DEPARTURES TO THE FIELD

	2016	2015
Medical pool	1,607	1,787

MSF Switzerland	171,372	General Director	62,760	Receptionist	Swiss Franc
MSF UK	76,650	General Director	24,220	Executive Assistant	Pound Sterling
MSF USA	208,500	General Director	47,100	Administrative Assistant	US Dollar

Additional remuneration of 45,845 euros was paid to equalise the after tax remuneration of the International President who remains tax resident in Canada (Canadian income tax rates are significantly higher than Swiss income tax rates). The additional remuneration relates only to the difference between Canadian income tax and Swiss income tax and provides the International President the same after tax salary as if the position has been tax resident in Switzerland.

The President, Vice President and other directly elected members of the International Board are elected for a three year term of office. Members of the International Board are eligible to serve a maximum of two consecutive terms.

5.3.4.2 REMUNERATION OF DIRECTORS AND MANAGERS

	2016	2015
President	133,926	121,072
Other International Board members	270,604	240,669
Executive Management - Secretary General & Executive Director	306,578	248,078

In 2016, MSF provided healthcare to refugees and migrants stranded in Greece and supported the authorities by vaccinating children aged between six weeks and 15 years against six childhood diseases.
